EMPLOYMENT HISTORY

Software Engineer, EPAM Systems, Madrid

OCT 2024 – PRESENT

- Contribute to the development and maintenance of a streaming platform, focusing on both feature implementation and bug resolution.
- Work with React and Angular within the same project, using VS Code as the primary development environment.
- Collaborate in multicultural teams with colleagues from Spain, Ukraine, and other regions, communicating primarily in English.
- Develop solutions alongside teams from Android, iOS, and Smart TV, ensuring platform consistency and quality across devices.
- Utilize tools such as Jira for issue tracking and GitLab for version control and CI/CD workflows.
- Apply strong knowledge of JavaScript, HTML5, and CSS, and leverage Azure and AWS for deployment and environment management.
- Previously contributed to Smart TV development; currently focused on web development for cross-platform streaming experiences.

Salesforce Developer, Nateevo, Madrid

NOV 2023 – APR 2024

- Developed and implemented solutions using Salesforce Marketing Cloud to enhance automated customer communications.
- Configured and maintained complex notification workflows (push, SMS, email, and in-app) across various campaigns and customer segments.
- Designed and built custom landing pages and email templates tailored to multiple use cases and responsive across devices.
- Collaborated with marketing and business teams to integrate communication flows into personalized customer journeys.
- Worked with Journey Builder, Email Studio, Content Builder, and Automation Studio to optimize campaign performance.
- Applied strong knowledge of HTML5, CSS, SQL, and integration protocols like REST and SOAP to support dynamic content and data-driven automation.
- Successfully completed a specialized Salesforce training program, earning a diploma and strengthening key knowledge of the Salesforce ecosystem.
